### **BOSCH HDQTRS Plymouth, MI**

The enclosure team of C. L. Rieckhoff, Peterson Glass and Jasman Construction, led by the Barton Malow management team, facilitated the rapid enclosure of this high-tech facility.

Jasman supplied the pre-fabricated panels, built in their manufacturing facility. Despite heavy rain and mud, the project was enclosed in less than 2 months (office area enclosed in the first 2 weeks), allowing other trades to work in a safe, clean and productive environment.

Project Statistics: **225,000 SF complex**

Location: **5 Mile Road & Haggerty  
Plymouth Twp., MI**

*Get Jasman involved during the design phase of your next project and save additional time and money!*
